***"VAN DEER-RED BULL SPORTS IS OUR VISION  
TURNED INTO REALITY - SKIS BUILT FROM A  
RELENTLESS PURSUIT OF PERFECTION."***

Marcel Hirscher's story is one of a kind. Competing at the highest level for 15 years, he profoundly changed the world of ski racing by setting new standards with his exceptional talent, technical skills, race intelligence, training methods, and physical fitness. What truly set him apart, however, was his professional, no-compromise approach to his equipment. Marcel's obsession with tinkering, fine-tuning, and perfecting every detail often drove people crazy — but his unique ability to turn intuition and feel for snow and gear into innovation made him one of the most successful alpine skiers of all time.

The fact that Marcel has achieved everything there is to achieve in alpine skiing is also a testament to his long-standing partnership with Red Bull. So it comes as no surprise that this collaboration has evolved into a shared vision. As an innovative ski manufacturer, VAN DEER-Red Bull Sports is ushering in a new era — taking skiing to the next level with shared expertise, an uncompromising winning spirit, and a relentless drive for perfection.

Not just on the racecourse, but also in Marcel's new favorite playgrounds: the backcountry and the big mountain.

# H-POWER SERIES

Even for a fiercely competitive skier like Marcel Hirscher, skiing is about more than just winning – it’s fundamentally about having fun. At VAN DEER-Red Bull Sports, we believe that exceptional skis can be both enjoyable and accessible for anyone looking to elevate their skiing experience. That’s why Marcel created the H-POWER SERIES – it’s your gateway into his world of skiing.

Whether you’re after a high-end, all-mountain ski that truly lives up to its name or an intuitive performance piste ski with World Cup roots, the VAN DEER-Red Bull Sports H-POWER SERIES delivers the perfect blend of ease and cutting-edge technology. You can confidently tackle both groomed runs and sidecountry adventures, all while having a blast on the slopes.

# H-POWER 68

A powerful on-piste ski, tested and fine-tuned by Marcel Hirscher, the H-POWER 68 blends World Cup DNA with accessible handling. Built for groomed, hard-packed conditions, it delivers precision, grip, and maximum stability – perfect for dynamic slalom turns as well as powerful GS-style turns.

- NEW FOR 26/27:**
- Now equipped with the MARKER FDT RACE PRO PLATE & BINDING
  - All lengths, including the short ones, come in sleek black

- KEY FEATURES:**
- 68 mm waist for agile edge-to-edge transitions and precise turn initiation
  - World Cup-level materials for maximum performance and durability
  - Race-grade base for excellent glide and long-lasting wear resistance
  - ABS sidewalls – ready to tune: for maximum grip and edge control
  - Ash-poplar wood core with dual Titanal layers for powerful energy transfer
  - Factory Tuning by Marcel Hirscher: Reproducible model-specific tuning for maximum performance and control, straight from the factory

# H-POWER 78

Designed to perform on both groomed slopes and off-piste terrain, the H-POWER 78 is Marcel Hirscher's choice for everyday versatility. It delivers the edge grip and precision of a race ski on hardpack, while remaining light, stable, and playful enough for fresh snow and side hits – making it a true all-rounder for ambitious skiers.

- KEY FEATURES:**
- 78 mm waist for genuine all-terrain versatility
  - World Cup-level materials for maximum performance and durability
  - Race base for superior glide and long-lasting speed
  - ABS sidewalls – ready to tune: for precise edge control and grip
  - Poplar-beech wood core with dual Titanal layers for powerful, stable energy transfer
  - Factory Tuning by Marcel Hirscher: Reproducible model-specific tuning for maximum performance and control, straight from the factory

# H-POWER 89

The H-POWER 89 is the widest ski in the H-POWER series – built for deep snow, variable terrain, and hardpack performance. It blends freeride float with carving precision, making it the ultimate all-rounder for skiers who demand versatility and control in every condition.

- KEY FEATURES:**
- 89 mm waist for the perfect balance of dynamic on-piste carving and off-piste float
  - World Cup-grade materials for maximum performance and durability
  - Race base for superior glide and long-lasting speed
  - ABS sidewalls – ready to tune: for precise edge control in all conditions
  - Poplar-beech wood core for the ideal combination of lightness and rebound
  - Dual Titanal layers (0.5 mm top and base) for absolute performance and stability
  - Factory Tuning by Marcel Hirscher: Reproducible model-specific tuning for maximum performance and control, straight from the factory

# PRO SERIES

When Marcel Hirscher decides to enjoy a groomer day, he reaches for his PRO SERIES. But don't let Marcel's idea of "easy" fool you - these are high-performance skis designed for aggressive on-piste charging or even gate turns. But they are slightly easier to handle and the perfect go-to skis for a powerful, all-day-long carving session.

Constructed like our WORLD CUP skis, they are built using the same cutting-edge technology and meticulous attention to detail. Because they aren't bound by FIS regulations, we've given them a wider geometry with an increased sidecut. What does this mean for you? A tighter turn radius and enhanced skiability. Whether you're an elite athlete like Marcel or a dedicated skier looking to carve the perfect line, these skis will be your go-to choice for all-day performance.

# RACE SERIES

As Marcel Hirscher once said:  
“You can be the best skier in the world, but without the best equipment  
you will never win.”

We want you to win. We want you to ski at top speed, push your limits,  
and conquer new terrain on the race course. Inspired by his 67 World Cup  
victories, 12 Discipline World Cup titles, eight overall World Cup titles,  
seven World Championship titles and two Olympic gold medals,  
Marcel Hirscher has developed a range of FIS-compliant race skis designed  
to be game-changers for your career. With his unrivaled experience and  
relentless pursuit of perfection, our World Cup skis are handcrafted and  
equipped with the same race room finish that brought Marcel Hirscher to  
the top of the podium. Even if you're not a World Cup athlete yet,  
you'll experience that World Cup performance every time you  
take your skis to the race course.

# SL

Inspired by the SL WORLD CUP, developed for maximum fun  
and performance on the slopes – now everyone can experience  
that race feeling.

- NEW FOR 26/27:**
- The SL comes with updated tip protection.

- KEY FEATURES:**
- High-end construction: Solid ash-poplar wood core with double Titanal and reinforcement – for exceptional stability, direct power transmission, and smooth running
  - ABS sidewalls – ready to tune: Allows for individual edge tuning for maximum precision and optimal grip
  - Sintered race base: Enhanced wax absorption and exceptional glide deliver maximum speed and performance
  - Corund surface and thicker steel edges: Durability and robustness
  - FDT plate & binding: Preserves the natural flexibility of the ski and ensures a smooth skiing experience with optimal control and damping
  - Factory tuning by Marcel Hirscher: Reproducible model-specific tuning for maximum skiing performance and control, straight from the factory

# JUNIOR PRO SERIES

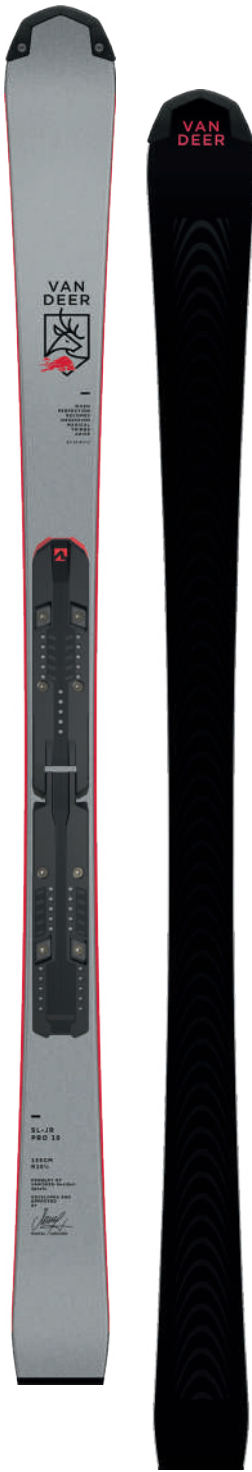

No one is born a World Cup champion – not even a living legend like Marcel Hirscher, who has conquered every accolade in alpine ski racing, including a record-breaking eight World Cup titles in a row, 67 World Cup victories, 20 crystal trophies, and 14 medals at major championships. For young, aspiring ski racers, reaching the top demands hard work, dedication, plenty of sweat, a bit of luck, and sometimes even tears. It also requires significant support from coaches, family, and friends – and, of course, top-notch equipment.

That’s where we come in. Our goal is to provide you with unique competitive equipment, which is why we craft our JUNIOR PRO SERIES just like our RACE SERIES – using the same world-class materials and race room finish. Our SL-JR PRO and GS-JR PRO skis not only meet all FIS regulations, but they have also been developed and approved by Marcel Hirscher himself.

# FREERIDE SERIES

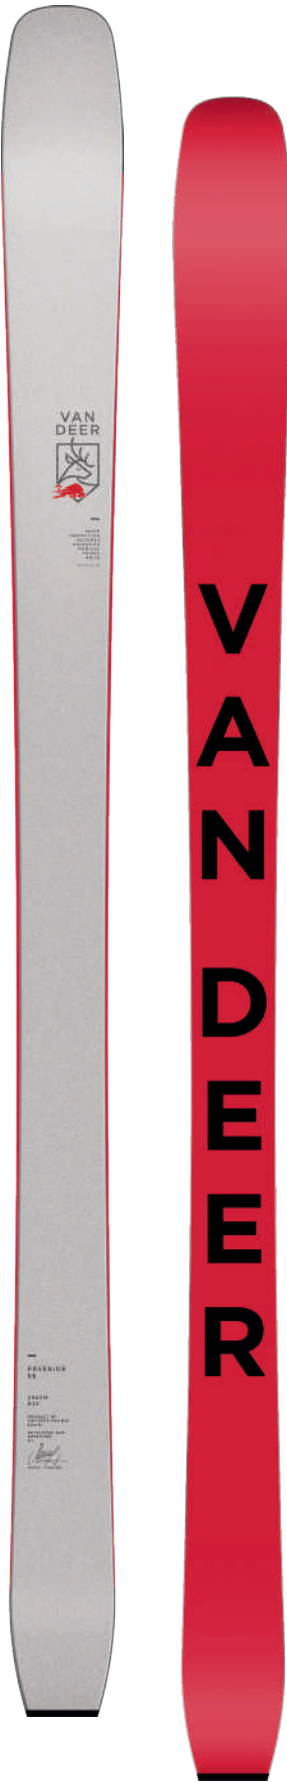

Marcel Hirscher is one of the most accomplished ski racers in history, earning the title of 'the greatest alpine skier of our time'. To confine his extraordinary skills to gates and racecourses would be a disservice to his talent. He is an exceptionally versatile skier, excelling on icy surfaces as well as in the deepest powder, and everything in between.

This passion for skiing inspired him to design his own series of freeride skis, engineered to tackle any challenge the mountain presents. These skis are the perfect companions for exploring uncharted territory. Available in a range of widths, they offer the versatility to handle everything from fresh powder to mixed conditions and groomed runs. With these skis, you can experience an extraordinary day on the mountain, no matter the terrain or weather conditions.

## FREERIDE 98

The FREERIDE 98 is the ultimate all-terrain freeride ski – your perfect partner for mastering any terrain with confidence and making every descent an unforgettable experience.

- KEY FEATURES:**
- 98 mm center width: The perfect balance between versatility and performance on a wide variety of terrains
  - Titanal 0.5 mm upper and 0.4 mm lower layer: Maximum performance and stability in all conditions and terrains
  - Tip Rocker: “Surfy” handling for effortless flotation in powder
  - ABS sidewalls – ready to tune: Allows for individual edge tuning for maximum grip and control
  - Factory Tuning by Marcel Hirscher: Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

FREERIDE 108

The FREERIDE 108 – the perfect ski for big-mountain skiers who know no limits: master any terrain with maximum control and lift.

- KEY FEATURES:
- 108 mm center width: Provides exceptional flotation and stable performance in powder
  - Titanal center stripe 0.5 mm upper and 0.4 mm lower layer: Lighter for floating in powder, with the same maximum performance and stability
  - Tip Rocker: “Surfy” ride, easy handling, and effortless float in powder
  - ABS sidewalls – ready to tune: Allows for individual edge tuning for maximum grip and control
  - Factory Tuning by Marcel Hirscher: Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

FACTORY TUNING

We set a new standard for off-the-shelf ski tuning and preparation – for every VAN DEER-Red Bull Sports ski. When Marcel Hirscher founded VAN DEER-Red Bull Sports, his vision was to make race skis available to every customer.

This doesn't mean that every VAN DEER-Red Bull Sports customer needs to be a racer, but that every customer deserves the same level of material, experience, tuning, and set-up that Marcel receives as a World Class athlete.

As part of this vision, Marcel and Ferdl Hirscher, together with a selected team of experienced and uniquely capable experts, bring years of know-how and hours of testing to the tuning of every VAN DEER-Red Bull Sports ski model. Now, Marcel's dream has come true: customers can experience that same first feeling on snow in a reproducible way thanks to FACTORY TUNING. This tuning is unique, and its recipe is strictly confidential.

Our exclusive FACTORY TUNING can be experienced by scanning our unique QR code. This code opens up the potential of FACTORY TUNING and again raises the bar for your experience on and off the slopes. Take your skiing to another level with our unique FACTORY TUNING on every ski model.

# TOURING SERIES

In ski touring, it's not just about reaching the summit – it's about freedom, a deep connection with nature, and finding the perfect balance between effort and flow. That's exactly why we developed the new VAN DEER-Red Bull Sports Skitouring Series. Ultra-light on the ascent and delivering unmatched downhill performance, these skis combine cutting-edge technology with uncompromising precision. They give you the stability to charge confidently – whether in powder, on spring corn, or on hardpack – while saving energy on the climb without ever sacrificing performance on the descent. From long backcountry missions to quick after-work tours or unforgettable powder days, the VAN DEER-Red Bull Sports Skitouring Series brings you closer to what ski touring is truly about: ultimate freedom, uncompromising performance, and pure skiing pleasure.

# RACE TOUR 65

**NEW THIS SEASON:**  
The RACE TOUR 65 was developed for ski mountaineers who push themselves and their equipment to peak performance. It's built for those who want to reach the summit as fast as possible and descend the same way with maximum speed. The ski offers lightness, agility, and ultimate speed.

- KEY FEATURES:**
- Ultra-lightweight Paulownia wood core:  
For maximum uphill efficiency
  - 7/12 mm front milling: Enables fast and secure speed-skin attachment - Carbon belt construction: Delivers superior stability at high speeds
  - Soft front flex & angular side shape shovel: Improved skiability and float in all snow conditions
  - Transparent race base: Highlights the carbon structure and endures multiple grinds
  - In a nutshell: The Race Tour 65 is ideal for those who want to compete in ski mountaineering – or push their limits to achieve peak performance outside of competition.
  - Factory Tuning by Marcel Hirscher:  
Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

# TOUR 75

**NEW THIS SEASON:**  
The TOUR 75 was developed for sport ski touring — for those who choose ski touring as part of their regular fitness routine. It is primarily used on or alongside groomed slopes, combining the endurance training of the ascent with the enjoyment of a rewarding ski descent.

- KEY FEATURES:**
- 75 mm waist: The ideal balance of weight, stability, and versatility
  - Hybrid sidewall design: Optimized for both alpine adventures and on-piste activities
  - Robust construction: Reliable performance in all snow conditions
  - Touring-specific geometry: Effortless handling on and off the slopes
  - Skin-attachment compatibility: 7/12 mm front and 42 mm tail milling for race or full skins
  - Factory Tuning by Marcel Hirscher: Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

In a nutshell, this ski combines fast ascents with enjoyable descents, making it the perfect partner for ski sport enthusiasts.

# TOUR 85

**NEW THIS SEASON:**  
The TOUR 85 was developed for true adventures and unforgettable moments in the mountains and nature. It's made for those who want to enjoy the silence of the outdoors and round off the day with a descent full of adrenaline, fun, and performance.

- KEY FEATURES:**
- 85 mm waist: Versatile width for stability in all snow conditions
  - Lightweight construction: Efficient on long ascents without sacrificing downhill performance
  - Precision edge engineering: Maximum control and reliable grip on any terrain
  - Forgiving and predictable handling: Easy skiing on everything from steep descents to tight tree lines
  - Factory Tuning by Marcel Hirscher: Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

In a nutshell: With its 85 mm waist, this ski offers plenty of float and its construction makes it the ideal companion for both ascents and descents beyond the slopes. It embodies agility, playfulness, and performance.

# TOUR 95

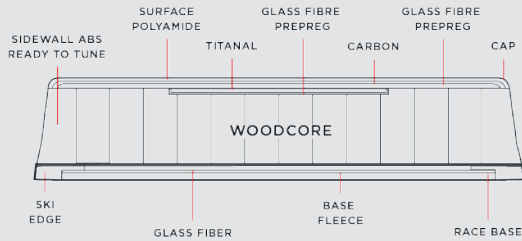

NEW THIS SEASON: The TOUR 95 was designed for real mountains, steep slopes, and deep snow. It's made for explorers and riders who have found nature to be their playground. After a long ascent, the focus is on a descent that couldn't be more pure.

KEY FEATURES:

- 95 mm waist: Wide platform for float and stability in soft snow
- Lightweight wood core: Efficient on the climb and responsive on the descent
- Sintered base: Fast, consistent glide across all snow conditions
- Balanced flex profile: Stable mid-section with softer tip and tail for predictable handling
- Factory Tuning by Marcel Hirscher: Reproducible, model-specific tuning for ultimate performance and control, straight from the factory

This ski opens the door to the world of nature and adventure in all its facets: power, steep slopes, narrow couloirs, and gentle formations. With a 95 mm waist, it offers the ideal balance for tackling every challenge the mountain presents.

## MARKER COMP 10 TCX

Welcome to the world of youth racing. The COMP 10 TCX uses the same heel technology as the Race XComp bindings, combined with the tried-and-tested TLT toe pieces – all perfectly adjusted to the weight and skiing performance of young on-piste racers. This binding enables top skiing performance with great power transfer.

RANGE	DIN	BRAKES	WEIGHT
MARKER COMP 10 TCX V25BN007	3-10	<85 mm	1095 g <sup>(2)</sup>

<sup>(2)</sup>weight per binding.

## MARKER COMP 12 GW

The Comp 12 GW is now also suitable for boots with GripWalk soles. It has the same high-quality design as all Comp models and includes DIN values from 4.0 to 12.0. The one-part screw connection of the toe piece by means of a 3-point hole pattern results in an extremely direct force transmission, which is not diminished by the absorbers underneath providing error-forgiving characteristics. The Comp absorber absorbs short, hard shocks and always keeps the ski boot optimally centered in the binding.

RANGE	DIN	BRAKES	WEIGHT

# MARKER COMP 16 GW

Maximum reliability and power at the highest speed and extreme edge angles on prepared slopes: the new Comp 16 with the TCX heel piece and adapted Comp toe piece. All components and materials belong to the top category. The binding features a more rigid heel piece and one-part toe piece built with magnesium components to withstand more pressure and delivers a more direct transmission of force to the ski thanks to a drilling pattern borrowed from the World Cup. At the same time, in the reverse direction, the feedback is more noticeable for the skier, making it easier for them to adapt to different slope conditions.

The tried-and-tested Z value of up to 16 enables optimum ski performance for all ambitious piste carvers and amateur racers.

# MARKER COMP 20

Marker's Comp bindings have been an integral part of the Alpine Ski World Cup for years. Countless titles have been won with the Comp series. All tried and tested components such as the Twin Cam Competition heel or the Competition 4-linkage toe piece are being used again this season. Manufactured with only the highest quality magnesium components, the Comp 20 allows perfect centering on the ski. This is crucial for edge changes executed with extreme precision, even at the highest speeds. The responsive construction provides a super direct power transmission, making the binding very reliable in all situations - an absolute must, especially in competition.

The Comp 20 was born for competition and that is where the Comp bindings are at home. Fortunately, the Comp 20 is also a great recommendation for all sporty alpine skiers who want to get the most out of all slopes.

RANGE	DIN	BRAKES	WEIGHT
MARKER COMP 20 V25BN014	11-20	85 mm	1375g <sup>(2)</sup>

<sup>(2)</sup>weight per binding.

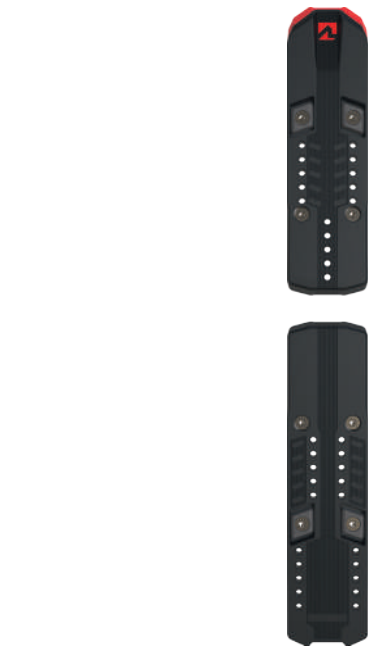

# MARKER COMP 30

Marker’s Comp bindings have been an integral part of the Alpine Ski World Cup for years. Countless titles have been won with the Comp series. Nowhere else is the cooperation between Marker engineers and athletes closer than in competition. The Twin Cam heel or the 4-linkage toe piece were developed this way and of course you’ll find them in this year’s Comp bindings. Manufactured with the highest quality magnesium components, the Comp 30 allows perfect centering on the ski. This means that edge changes can be made with extreme precision, even at highest speeds. The responsive construction, paired with incredibly direct power transmission, creates highest reliability in all situations - an absolute must, especially in races.

The Comp 30 with a DIN setting up to 30 was developed for World Cup competition to cope with the toughest slopes, highest speeds and most adverse conditions.

RANGE	DIN	BRAKES	WEIGHT

<sup>(2)</sup>weight per binding.

# MARKER JR INTERFACE SHORT

Designed for the champions of tomorrow, the Junior Race Interface Short delivers exceptional power transmission tailored to light-weight skiers. Engineered with a front elastomer for superior shock absorption and a shorter footprint, this plate ensures optimal ski flex, perfectly tuned for ambitious young athletes. Pair it with the MARKER COMP 10 TCX binding for unmatched performance on the slopes.

RANGE	STAND HEIGHT	WIDTH / LENGTH	SOLE LENGTH	WEIGHT/PC.
MARKER JR INTERFACE SHORT V25PL006	14 mm	58 / 465 mm	190 - 294 mm	220 g

# MARKER JR INTERFACE PIVOT

Specifically designed for young racers, the Junior Race Interface Pivot meets the highest standards of performance and precision. It’s fine-tuned for skiers who excel at setting a hard, clean edge. Featuring a front elastomer for enhanced shock absorption and tip-and-tail free flex sections, this plate maximizes performance while keeping your skis highly reactive. Developed and tested to pair perfectly with the Marker COMP 10 TCX, it’s the ultimate choice for ambitious young athletes ready to dominate the slopes!

RANGE	STAND HEIGHT	WIDTH / LENGTH	SOLE LENGTH	WEIGHT/PC.
MARKER JR INTERFACE PIVOT V25PL007	14 mm	58 / 505 mm	230 - 334 mm	250 g

# MARKER INTERFACE 10 MM

The Piston® Control Interface is used on the World Cup and comes with an integrated high-tech oil-hydraulic damper which converts energy directly into speed. The skiing experience is simply stunning, because the Piston® Control System only reacts to negative rebound and shocks, the turn initiation is faster, the edge grip more direct, effortless from turn to turn. Compared to the previous version, a softer center piece has been installed, which ensures a more homogeneous flex over the entire length of the ski. The new hole pattern with extended mounting options ensures optimum hold and function on all ski models. The new, more stable clamps ensure improved power transmission, especially at the end of the turn. It’s a perfect match with all race skis and fully compatible with all MARKER Race bindings.

RANGE	STAND HEIGHT	WIDTH / LENGTH	SOLE LENGTH	WEIGHT/PC.
MARKER INTERFACE 10 MM V24PL002	10 mm	59 / 542 mm	260 - 362 mm	645 g

# KOHLA RACE TOUR 65 MOHAIR SKIN

Our RACE TOUR Skin is made from 100% high-quality mohair and has been specially developed for demanding ski tourers and SKIMO enthusiasts. The mohair material ensures excellent gliding properties combined with strong grip – ideal for steep ascents.

- Key Features:**
- 100% mohair: Offers outstanding gliding properties and optimal grip on every ascent.
  - Hot melt adhesive: Reliable adhesion and easy handling in all conditions.
  - Lightweight and durable: Designed for maximum performance during intense skimo adventures.
  - Precise dimensions: With a width of 62 mm and a length of 150 cm, ideally matched to our Race Tour skis in 151 cm and 161 cm.
  - Innovative I-Race Loop System: Rubber cord with retaining plates for precise attachment of the skin to the milling of the ski tip.

# SKI BOOTS

Why a VAN DEER-Red Bull Sports ski boot? When asked this question, Marcel Hirscher immediately answered: "Ultimate ski performance always starts with the boot. And when skiers ask me about our skis, I first ask about their boots." Unlocking a ski's true potential requires the perfect ski boot.

That's why VAN DEER-Red Bull Sports decided to take our know-how and build our own from scratch. The PRO BOOT embodies the ideal blend of sporty precision and exceptional comfort. Tested under race conditions by skiing legend Marcel Hirscher, the PRO BOOT is crafted for skiers who demand nothing less than the highest standards.

## PRO BOOT

The PRO BOOT is the epitome of performance and comfort – developed for demanding skiers who expect absolute control and top performance in every situation.

**NEW IN 26/27:**  
new sizes from 23.0 - 29.5

- KEY FEATURES:**
- Optimized performance sole: The shortened sole length (298 mm for size 26.5) improves power transmission and ensures precise control
  - Intuitive liner: Thermally adaptable foam for an individual fit and maximum comfort
  - Perfectly adapted geometry: The 97 mm last width ensures an excellent fit and power transmission
  - Sidas Powerstrap P2: Individual flex control for maximum precision, stability, and energy transfer
  - Grip Force Lifter (GFL): Pre-installed lifters increase the stance height by 5 mm, improve stability, and protect the sole from wear and tear

### TECHNICAL DETAILS

Shell and Cuff Material: Polyurethane  
Shell Bootboard Material: Hard Polyurethane Foam  
Buckles: World Cup Buckles 7075 Aircraft Aluminum  
Liner: Intuition Liner thermoformable Foam for perfect fit incl. tongue

## FEATURES PRO BOOT

DEVELOPED AND  
SPECIFIED BY  
VAN DEER-Red Bull  
Sports

*Marcel*  
MARCEL / HIRSCHER

## OPTIMIZED PERFORMANCE SOLE

Shorter soles mean better power transmission. While a standard ski boot in size 25.5 has a sole length of around 295 mm, the PRO BOOT is engineered with a reduced sole length of 288 mm in size MD 25.5. This optimized design enhances power transmission, ensuring maximum performance on the slopes and between the gates.

## GEOMETRY

The geometry has been meticulously optimized, particularly in the toebox, where a unique design has been achieved. This innovation is the result of analyzing thousands of foot shapes, ensuring a perfect fit. The volume is precisely tailored to match the liner, delivering exceptional power transmission. This enhances control and elevates the overall skiing experience, maximizing both performance and enjoyment.

## LIFTER

The PRO BOOT comes pre-assembled with the GFL (Grip Force Lifter). These specially designed lifters from VAN DEER-Red Bull Sports deliver outstanding grip on almost any surface, enhancing your safety without compromising performance on snow or between the gates.

## LINER

The liner is specially created using top-quality materials, with its most important feature being in the innovative Intuition-padding. This technology allows the liner to perfectly mold to the shape of your foot in just a few minutes. This process can be repeated up to 10 times.

The liner also comes with an Ortholite insole for extra comfort and support. Additionally, the tongue is made with Intuition material, allowing it to fit perfectly to your leg, significantly improving comfort.

# SKI POLES

Discover a new dimension of performance, innovation, and design with our premium ski pole collection. Each model is specifically crafted for passionate skiers and racers, featuring high-quality carbon for exceptional lightness, durability, and optimal swing dynamics. Whether carving on icy slopes or chasing record times, these ski poles deliver unmatched control and precision.

Ergonomic grips, adjustable straps, and advanced tungsten carbide tips ensure comfort and reliability in every situation. From versatile all-round models for the slopes to specially designed racing poles optimized for maximum precision and speed, this collection offers an unparalleled level of comfort, excellent power transmission, and absolute dependability. Elevate your skiing experience with gear that sets new standards for performance and excellence.

# PISTE CARBON

The PISTE CARBON is the perfect premium ski pole for demanding skiers who want to go full throttle on the slopes. Its lightweight and extremely robust tube made of high-quality carbon ensures an optimum swing weight and maximum performance.

The ergonomic two-component rubber grip offers outstanding support and rests securely in the hand even on long descents. The innovative click-in strap guarantees optimum fit and control - curve after curve.

With the Tungsten Carbide Flex Tip, you'll always have perfect grip even on icy surfaces, while the ultra-light mini tips have been specially developed for tough piste conditions.

A ski pole that sets the highest standards in terms of quality, functionality, and design.

## TECHNICAL DETAILS

- 2-Component Rubber Handle (non-slip and stable)
- Click-In Strap (secure hold and easy entry/exit)
- Carbon Fiber Composite (Ø 13/9 mm)
- Tungsten/Carbide Flex Tip
- Mini UL Basket

RANGE	COLOUR
PISTE CARBON, 110 cm V25ZU076.110	Khaki / Black
PISTE CARBON, 115 cm V25ZU076.115	Khaki / Black
PISTE CARBON, 120 cm V25ZU076.120	Khaki / Black
PISTE CARBON, 125 cm V25ZU076.125	Khaki / Black
PISTE CARBON, 130 cm V25ZU076.130	Khaki / Black
PISTE CARBON, 135 cm V25ZU076.135	Khaki / Black

# RACE CARBON

The RACE CARBON is a premium ski pole that has been developed to offer skiers maximum performance and control. It's highly versatile and suitable for a wide range of uses. Its lightweight, slim yet extremely robust tube is made of high-quality carbon and ensures a perfect swing weight and excellent stability.

The ergonomic, non-slip rubber grip in combination with the adjustable strap and loop lock ensure a secure and comfortable hold, even on dynamic descents.

The mini tip, specially designed for sporty use, ensures optimum power transmission, while the durable Tungsten Carbide Flex Tip offers excellent grip on hard or icy slopes. This is a ski pole that guarantees maximum precision and reliability for skiers of all levels.

## TECHNICAL DETAILS

- Race Rubber Handle (non-slip and stable)
- Race Strap (secure hold and easy entry/exit)
- Carbon Fiber Composite (Ø 13/9 mm)
- Mini Race Basket
- Tungsten/Carbide Flex Tip

RANGE	COLOUR

RACE CARBON, 130 cm V24ZU0030.130	Gray / Black
RACE CARBON, 135 cm V24ZU0030.135	Gray / Black

# RACE GS CARBON

The RACE GS CARBON is a premium racing pole that has been specially developed to help you gain that decisive hundredth of a second. It's highly versatile and suitable for a wide range of races. Its light, slim, and extremely robust tube is made of high-quality carbon and ensures a perfect swing weight and maximum performance.

The ergonomic, non-slip rubber race grip and the specially developed race strap with loop lock offer an exceptionally secure and precise grip, even at high speeds. The sophisticated design ensures comfortable handling in any situation.

The mini race basket, optimized for racing, guarantees maximum performance, while the durable Tungsten Carbide Flex Tip offers the perfect grip even on hard and icy slopes. It's the ideal pole for racers who want to perform at the highest level.

## TECHNICAL DETAILS

- Technical rubber grip - optimum grip
- Racing loop with loop lock, makes it almost impossible to pull out
- Carbon, 12.3mm diameter - low weight and maximum performance
- Weight: 199g per pole at length 125cm
- Aero GS Basket

RANGE	COLOUR
RACE GS CARBON, 115 cm V25ZU070.115	Gray / Black / Red
RACE GS CARBON, 120 cm V25ZU070.120	Gray / Black / Red
RACE GS CARBON, 125 cm V25ZU070.125	Gray / Black / Red
RACE GS CARBON, 130 cm V25ZU070.130	Gray / Black / Red
RACE GS CARBON, 135 cm V25ZU070.135	Gray / Black / Red

# RACE SL CARBON

The RACE SL CARBON is a premium racing pole that has been specially developed for slalom races to help racers gain those crucial hundredths of a second. Equipped with pre-mounted slalom handguards, it offers optimum protection and maximum performance.

The lightweight, slim, and extremely robust tube is made of high-quality carbon and ensures an outstanding swing weight that enables maximum agility and efficiency.

The ergonomic, non-slip rubber race grip in combination with the race strap and the strap lock ensure a secure hold and maximum comfort – even during intensive runs.

The specially developed slalom plate ensures precise control and stability, while the durable Tungsten Carbide Flex Tip provides the perfect grip even on hard and icy slopes. It's the perfect companion for racers who value precision, control, and performance.

## TECHNICAL DETAILS

- Technical rubber grip - optimum grip
- Impact protection World Cup made of heavy-duty thermoplastic, absorbs hard impacts
- Racing loop for optimum grip
- Loop lock - makes it almost impossible to pull out
- Shrink tubing to reinforce the tube
- Solid screw connection for bombproof hold and no twisting of the impact protection
- Carbon, 12.3mm diameter - low weight and maximum performance
- Weight: 300g per pole at length 125cm + handguard
- Slalom Basket

## RANGE

<b>RACE SL CARBON, 135 cm</b> w/ Handguard V25ZU069.135	Gray / Black / Red

# FREE CARBON

The FREE CARBON adjustable pole is a lightweight, robust telescopic freeride and ski touring pole. It's adjustable via the Carbon Powerlock, allowing for different pole lengths based on the terrain and situation.

Its comfortable two-component rubber grip and the practical Ergo Click-In Strap provide a reliable grip, both uphill and downhill. Thanks to the thermal, non-slip rubber grip zone you can comfortably and easily lower your grip on the pole through traverses or steep terrain without getting cold hands. Wide powder baskets prevent sinking in, and the robust Carbide Flex Tip ensures superior grip on pretty much any terrain.

## TECHNICAL DETAILS

- Upper part: 16 mm aluminum 7075 T6 - Lower part: 14 mm carbon
- Touring Foam Grip
- Extended Foam Grip Zone
- Ergo Strap Click-In
- Large Deep Snow Basket
- Aluminum Powerlock 3.0 – strongest closure on the market – Carbide Tip
- Weight: 434 grams per pair without basket
- Adjustable: 110 - 140cm

# ACCESSORIES

Teaming up with OGIO means teaming up with the best. With over 30 years of experience in crafting bags for those who want their equipment well stowed and ready for any adventure, OGIO was the natural choice for us. Marcel himself experienced this firsthand while pursuing his passion for Hard-Enduro in the summer, traveling with his OGIO gear. That's why OGIO is our partner of choice when it comes to bags.

# TRAVEL BAG

The Travel Bag is surely the ultimate gear bag. Its durability and impressive list of features are legendary. Whether you're embarking on a day trip in pursuit of the perfect line or on a longer journey across the globe, grab the Rig to have your soft goods and clothing in a single wheeled bag.

- SLED (Structural Load Equalizing Deck) system for increased durability and handling in the harshest of conditions
- Wide-mouth LID opening for easy access to all compartments
- Several multi-use LID compartments for apparel and smaller gear
- iFOM (integrated foam) construction throughout for added gear protection
- Heavy-duty oversized wheels with extra clearance
- Secure hold compression strap system
- Telescopic pull handle

## RANGE

	COLOUR	DIMENSIONS	VOLUME	WEIGHT
TRAVEL BAG V25ZU051	Khaki/ Black	CM 86 H x 42 W x 39 D	123L	6.4 kg

# SKI CARRIER

The SKI CARRIER was designed with versatility in mind. The expandable design can transform to accommodate two pairs of skis from 140 cm to 200 cm – and it's tough enough to withstand all of your outdoor adventures. Boasting a large top opening for easy access and adjustable main compartment retention straps, the SKI CARRIER is packed with features and priced for good value. Use the simple grab handle or convert the straps to a shoulder harness – a multitude of carry options makes life so much easier. Additional storage under the lid stows a handy towel to dry your edges prior to stowing your skis.

- Unique ski/pole retention system can covert the SKI CARRIER to carry multiple sizes of skis
- The SKI CARRIER can convert from a double to a single ski/pole platform, providing the ultimate versatility
- The innovative design is equipped with a 15 cm zip expansion panel to accommodate skis from 140 cm to 200 cm
- Soft touch Velcro retainer system provides support and protects your gear from scratches
- Under-lid storage area maximizes space and allows easy storage of a towel
- Multiple carry handles include a shoulder harness pad – carry the bag in whatever way works for you
- External air vents allow breathability for drying while in storage

## RANGE

	COLOUR	DIMENSIONS	VOLUME	STORAGE
SKI CARRIER V25ZU052	Khaki/ Black	CM 200 H x 30.5 W x 16.5 D	100l	2 pairs of skis

# RACE BAG MEDIUM

Crafted from the most robust PFA-free and weather-resistant materials, our RACE BAG MEDIUM stands strong against the elements. Carrying your equipment from A to B is a cinch. Ergonomic and padded, the adjustable shoulder straps make for comfortable carrying, while the reinforced handle ensures a secure grip. The backpack has a large capacity of 72 liters and is cleverly designed to keep your ski boots dry and fresh for every run.

- U-shaped main opening for easy access to ski boots and internal storage
- Insulated cooler fabric lining on the side pocket keeps contents cold
- Dual external side pockets for water bottles, snacks or small gear
- Large main compartment with coated mesh zipped pocket under the lid for storing electronics and small gear that you want to keep dry
- The EVA molded back panel is equipped with a trolley sleeve so you can carry your boot bag on your luggage during transport
- Padded S-shaped shoulder harness with sternum strap for comfort that stows away when not needed
- Padded grab handle
- Internal Velcro system accommodates an accessory heating element to dry your boots
- Anti-slip bottom protects the contents from winter conditions

RANGE	COLOUR	DIMENSIONS	VOLUME
RACE BAG MEDIUM V25ZU054	Khaki/ Black	CM 53 H X 30.5 W X 38 D	72L

# RACE BAG LARGE

Introducing the ultimate gear bag designed for those who won't settle for "good enough". The RACE BAG LARGE has a generous capacity of 90 liters, providing ample space for all your essential equipment and more. Whether you're tackling the slopes or embarking on other exciting adventures, this versatile bag has got you covered.

- U-shaped main opening for easy access to ski boots and internal storage
- Insulated cooler fabric lining on the side pocket keeps contents cold
- Dual external side pockets for carrying water bottles, snacks or small gear
- Large main compartment with coated mesh zipped pocket under the lid for storing electronics and small gear that you want to keep dry
- The EVA molded back panel is equipped with a trolley sleeve so you can carry your boot bag on your luggage during transport

# FACTORY RACING SKIBAGS

If you're about to hit the race tracks, we've got you covered – our FACTORY RACING SKIBAG that keeps your DEERS protected wherever you go. This high-quality padded premium bag for up to three pairs of skis comes in our exclusive Factory Racing Design for a good reason: it's the ski bag our World Cup athletes use all winter when traveling the world. It's extremely hard-wearing and water-resistant on the outside and easy to clean on the inside. The external compression straps and sturdy buckles allow you to pack your skis tightly so there's no damage to edges and bases.

- It comes in two lengths:
- 185 cm for SL ski
  - 215 cm for GS ski

RANGE	COLOUR	LENGTH	STORAGE
FACTORY RACING SKIBAG, SL V23ZU019	Black	185 cm	3 Pairs of Skis
FACTORY RACING SKIBAG, GS V23ZU018	Black	215 cm	3 Pairs of Skis

# SKI STRAP

Our RACE STRAP is a small but essential piece of gear for skiers. This Velcro skifix securely holds your skis together, keeps them in place and protects your skis' edges and bases from damage, wherever you go. Marcel recommends two straps per pair of skis to protect your tune.

RANGE	LENGTH	FITTING SKI
SKI STRAP V25ZU074	440mm	RACE, PRO & JUNIOR SERIES
SKI STRAP V25ZU075	490mm	H-POWER 68, H-POWER 78
SKI STRAP V26BE106.XXL	530mm	H-POWER 89, FREERIDE SERIES

# EVERYDAY ESSENTIALS

From an evening out in the city to the final descent on the slopes – the EVERYDAY ESSENTIALS will be with you through every moment. Whether hoodies, T-shirts, long sleeves or beanies – every item is carefully designed to meet the highest standards, combining the best of the sports and everyday worlds.

Inspired by our ski models H-POWER 89 and FREERIDE 98, the subtle, earthy tones of ochre and off-white make a statement for those who want to master their style as effortlessly as their runs. This collection raises the sartorial bar while bringing a sense of the slopes into the city. Discover the EVERYDAY ESSENTIALS and experience how seamlessly your mountain adventures can be worn on the street.
